Offer in Compromise

Many taxpayers are in a position where they can never fully pay off the IRS. With the penalties and interest the IRS continues to add EVERY SINGLE DAY, it may become mathematically impossible to get out from under.

Well, through an IRS program called "Offer in Compromise," you can pay the IRS a much smaller amount to totally wipe out your debt, including all penalties and interest. Once the IRS accepts your offer and you pay the agreed-upon amount, all Federal tax liens are released. You get your life back!

Escape the Penalty Trap!

The IRS seems penalty-happy and out of control! Penalties are assessed for all kinds of reasons, but with a single goal: to punish taxpayers severely. This punishment often results in extreme hardship for individuals and families.

What many people don't know is that penalties can often be reduced – sometimes to ZERO. The IRS has guidelines identifying many circumstances that allow elimination of penalties. We'll discuss with you – in complete confidence – the situation that led to your tax debt and penalties. Then, we'll prepare a Request for Abatement of Penalties to help you avoid unwarranted penalties.

Unfiled Returns?

Some taxpayers fall behind in filing a return. Then, they make matters worse by continuing not to file – and they continue not sleeping! They're afraid of what will happen when they get back into "the system."

One-Fifth Financial can smooth this transition by representing you with the IRS. We'll deal with all IRS communications and file your prior year (or years!) tax returns. You can stop worrying and start sleeping again.
